ABSTRACT

This directory was compiled by the Chinese American Librarians Association based on replies to questionnaires sent to more than 500 Chinese American librarians in the United States and research based on secondary sources. Information provided on each person includes: name, name in Chinese, position/title, institution, institution's address, field of work, education, experience, and home address. A questionnaire is attached to the end of the directory for anyone whose name is not listed in the directory and who wishes to be included. There is also a fact sheet on the CALA explaining its history, purposes, membership, conferences, and publications. (Author/JAB)

Preface

The Directory is compiled by an Ad Hoc Committee of the Chinese American Librarians Association created in 1976. The Committee consists of Tze-chung Li (Chairperson), Roy Ting-kwo Chang, and Margaret Yee. Main sources for compiling are: (1) Replies to questionnaires sent out to more than five hundred Chinese-American librarians in the United States; (2) Committee members' own research primarily based on secondary sources.

For each person, if information is complete, are listed name, name in Chinese, position/title, institution, institution's address, field of work, education, experience, and home address. An asterisk (*) after the name indicates member of the Association. For the purpose of this Directory, the term "Chinese-Americam" denotes anyone of Chinese descent or anyone who claims to be Chinese or of Chinese descent.

The Directory is far from complete. It is hoped that in future editions, more names and information will be added. Anyone whose name is not listed in the Directory and who wishes to be included therein, please fill out the questionnaire at the end of the Directory and return it to the Association for inclusion in the future edition.

The Committee wishes to thank Mrs. Dorothy Li for her work in writing names in Chinese. Thanks are also due Miss Heather West, a graduate student at Rosary College Graduate School of Library Science, for her assistance in collecting data, verification, and correspondence. The Committee is most grateful to biographees for their replies to questionnaires without which this work could never have been completed.
